

The **Aviation/Engineering Operations Analysis** lab at the Oklahoma State University Mechanical and Aerospace Engineering Department is seeking a

Graduate Research Assistant

to work on human factors in flight training research problems.

The position is fully funded and includes tuition, health insurance, and monthly stipend.

Minimum qualifications:

- Bachelor's degree
- Coding skills
- Basic understanding of statistics
- OSU MAE Graduate Program admission qualifications

Preferred qualifications:

- Flying experience
- Master's degree in relevant field
- Python and/or Matlab, Unity
- Experience with statistics and human factors

Those interested should send their CV/resume and a short statement on their research interests to Dr. Nicoletta Fala at nfala@okstate.edu. Information on the application, admissions, and deadlines is available on the [MAE website](#).
